Using FeedWatch to Retrieve Dairy Profit Monitor Feed Data

Version 7:

If you have FeedWatch and would like a pre-created report to use to get your feed data, please contact the DPM administrator at dairyprofit@cornell.edu.

How to Import FeedWatch Report:
1. Save report on your computer
2. Open FeedWatch
3. Select Setup Tab
4. Select User reports
5. Right click on list of reports
6. Click Import Report
7. Once report is imported it will be under user reports. You can then specify the location/menu you would like it to appear under in the upper right-hand corner of the screen.

Once the Report is Imported:
1. Select Report
2. Right click to add filters
   - Filter 1: select Between Dates and enter dates as shown: For January 1-31, 2022 enter 1/1/2022, 1/31/2022
   - Remaining filter should be for the **Lactating Pen Recipes only**

Version 8:

For Version 8, use the ingredient usage by Pen Type Report. Select only **milking pens**.
